

GREAT SNOWMOBILING
JUST 7 MILES FROM
GRANGEVILLE, IDAHO

TREAD LIGHTLY

Snowmobiling is one of many uses of these areas. Snowmobiles in an unsuitable area can damage resources. Drivers must assume responsibility for proper vehicle operation.

If users take responsibility to ensure there is no litter, wildlife harassment, water degradation, or other resource damage, restrictions will be unnecessary in the future. Public cooperation is far more effective in helping to protect resources than rules and regulations.
